Procedure for [ ] Requirements for  
Mapping, Charting, and Geodesy

1. DIA will consolidate the list of specific objectives nominated by Army, Navy, and Air Force assigning relative mapping, charting, and geodesy priorities.
2. The CIA and DoD objectives will then be integrated by CIA and DIA representatives.
3. The Department of the Army as a DoD assigned task will:
  - a. In accordance with guidance to the Chairman, PWG assign COMOR numbers to MC&G objectives from the appropriate block of COMOR numbers.
  - b. Submit MC&G objectives on Soviet Bloc to PWG for coordination of priorities between intelligence and MC&G objectives. In cases where top MC&G compete with intelligence objectives such questions will be resolved by COMOR.
  - c. Prepare both machine cards and tab runs, including required information on each MC&G objective. Distribution of cards to NRO for use in programming will be made only by PWG acting for COMOR. AMS will distribute the tab runs as specified by the DIA.
  - d. Upon completion of mission, promptly evaluate coverage in accordance with appropriate criteria and report accomplishment in terms of the nearest 25 per cent coverage to NRO and other participating agencies.
  - e. Remove from requirements list all objectives for which 80 per cent coverage is obtained. ~~In the case of town plans, the target must also have been photographed at an obliquity of no less than 15 degrees.~~
  - f. Update requirements list for new MC&G objectives as consolidated by DIA.
